About Me

Highly motivated and experienced software developer with a strong background in developing dynamic and interactive web applications using various technologies including MERN Stack, JavaScript, React, Node.js, Express, PHP, and others. Seeking a challenging full-stack or front-end/back-end developer position in a fast-paced and dynamic environment.

Experience

Digital Genei (Jul 22 - Sep-22)

Associate Web Developer

Developed and maintain various web applications and WordPress websites. Worked with team to deliver cross-browser compatibility. Fixed bugs and issues with the older apps

WBX Technologies (Sep 22 - Present)

Web Developer

Developed various front-end and full-stack websites using different technologies like Bootstrap, jQuery, JavaScript, PHP, and react. Delivered custom software solutions while working with team.

Mera Kommunikation (Jun 23 - Present)

Next Js Developer

Worked on Next.js, React.js and Node.js to develop different web applications including online store with hundreds of daily visitors and some management system apps.
